I sweetheart mine: -

Just saw Dr. Vidal & he says I may go to Butte sometime or rather anytime between the 10th + 16th of Nov. for a couple of days. So that's that love Boy - You write me & tell me just which day to meet you there & make 235 if possible & I'll be there even if you don't get a letter from me saying so. It may be I won't be able to get a letter to you in time, after I hear from you. See? So what ever you say goes. And I'm sorry dear heart you didn't get a letter from me Tuesday - I wrote to you every day last week but Sunday & I've no way to mail a letter on Sunday. You must have had two letters from me one day. And you are really delicious daddy dear. I do believe you are jealous of that picarining. Don't worry honey - he's a damn nice kid & I do like him, but I prefer 'em all white - about 35 years old, with pretty

blue eyes + light brown hair. In
other words you, dear one. As long as
you + I are making the grade together,
sweetheart, I'm yours + you don't need
to fret about anyone else playing a
very important part in my life. How's
that? Sister boy of mine - better make
it around the last of next week to meet
me in Butte - ~~the~~ after the 15th is rather
an uncertain time for me. Understand?
Got the nicest suit of pajamas from
Inez yesterday. Is it she a peach of
a kid? We had a movie show here
last nite. It was the absolute bunk
I say. Not even good kid stuff. Well
love mine must say Bye with all
my love + kisses to you + my dear ones
at home. May trifle a bit Dad but
always shoot square, + if you get
jealous of anyone I'll sit on you -
Yours Always
Aling

Sweetheart:-

Love you Daddy
darling + sh how glad
I am yours all mine. I'm
all yours too love some
day I'll make it up to
you for being you
for me. You are the
one for me dear heart in
this world + all other. If
it's for me to go + leave
you here, I'll wait for
you wherever I am and
someday you will come

to me. And if you go
first - when I can I'll
come to you. Oh sweetheart
how much I love you - It
seems as if I can't stay
away from you so long. I
think of you all the times
love mine. It will seem
like heaven to be able to
lie in your arms again
& feel your body pressed
close to mine & my lips
on yours. And I know
you'll wait for me & save
all your loving for me -
it makes me glad. You
may dream of it all you
want - poor little kid had

another hemorrhage
yesterday, but seems
some better today. Eva
is very low - her folks
aren't here yet - think they'll
come tonight. Am glad
the little kiddies are so
well. Say, dear Aunt, can
you send me \$3.00 - you
keep saying the reason
you didn't write was because
you wanted to send it to me,
but never says a word
about why, you didn't. If you
can't spare it just say

so, but if you saw I would
like to send it & get started
on that course. I've got to
do something to occupy
my mind or I'll go crazy.
Poor Mrs. King, she got
another letter from him
yesterday & he said
little Ginnie had whooping
cough so suppose they'll
have to be quiet there till
he's well. If you do any-
thing about him? I'm sorry
I bothered you about it,
but I know you'll under-
stand. What difference
does it make if there
are fish in Cora Creek? You

don't like to fish. Are
you planning on making
a fisherman out of me?
When you come next
time down here you can
spend one more hour with
me - we can stay up
till 10 now. Was over to the
dining room, played card
last night - was trying
to teach Mr. Johnson, he's
the little skinny fellow
was telling you about) to
play 500 - someguy
kick out of it - he

said he'd rather play
chess checkers & asked
me if I would play with
him Friday night (we
are allowed to go to the
dining room & play cards
or games twice a week -
now & I is from 7 P.M.
till 9:30) & I told him
yes. I'm going to practice
up so it won't be so
easy for you to win
your bets & beat mine
so be prepared. I'm
not betting with him
the, dear one. See? I
saw all my bets for you
& sometimes it's kinda

with a world of love & kisses
Yours always
Anna

Best Beloved:

Just a note this morning a lead heart to take the bad taste of my last letter out of your mouth. Really honey I know I shouldn't worry you with such insignificant troubles when you have so many already, but I was rather furious & so of course I went to you. Sorry to hear Tom has T.B. I'm wondering, too. Do you suppose Old Bossy had T.B.? You know she did cough quite a lot. If so it's a good thing she is dead. What do you suppose Tom & Carrie will do? Are they back yet? Talked to Mr. Vidal yesterday & he said my

teeth would have to be
cared for right away. A
dentist is coming down the
first of the week & he's going to
have him look at my X Rays &
examine my teeth & then
decide just what's what. If
they can wait till I go home
Lenas will have to have it
done then. Otherwise he may
decide to let me go right
away so best you get me a
pass good from the 1st of Dec.
till the last & send it to me.
See? Then if I must go I'll
be prepared. Please do this
love right away, won't you? What
you suppose Mickey will make
that good the 1st of Dec. I should think
she would when he knows how
hard up you are. Well dearest
must say Bye. Love you Boy of
mine with all my heart. X X X
X X X Always Always. Love
